Education

University of Illinois Champaign, IL
Bachelor of Science in Computer Science Expected May 2027
Relevant coursework: Computer Architecture, Data Structures & Algorithms, Database Systems, Game Development

Experience

Central Illinois Mosque and Islamic Center (CIMIC) Urbana, IL
IT & AV Systems Support Aug 2025 – Present

- Administer servers, display endpoints, IP cameras, and livestream infrastructure for weekly services and community events, providing live technical support during services
- Built an IoT automation system with Home Assistant and Wake-on-LAN, plus trigger-based MacroDroid flows that power displays, route channels and sources, and shut systems down on schedule, eliminating manual AV setup for recurring services

Rosecrance Behavioral Health Champaign, IL
Engagement Specialist May 2025 – Present

- Recorded 2,500+ service contacts with 1,750 unique clients across a three-county service area, coordinating care linkage between inpatient, outpatient, and community providers in a HIPAA-regulated environment
- Designed and maintained a data tracking system logging crisis events, response types, and outcomes, improving team visibility and operational efficiency; provided technical support alongside engagement duties

Confidential Technology Company IL
Software Engineer Intern May 2023 – Aug 2023

- Designed and implemented a centralized framework for team ecosystem documentation using Markdown, HTML, and JavaScript, improving accessibility and organization across the engineering team
- Developed configurable widgets enabling dynamic content creation and customization without predefined data sources

Projects

Campus Housing – UIUC Apartments Champaign, IL
Vue 3, TypeScript, Python • vipersurf.github.io/uiuc-apartments.com Aug 2026 – Dec 2026

- Engineered an automated ETL pipeline in Python (BeautifulSoup) that scrapes and normalizes listings from 4 landlord portals and geocodes addresses via the OpenStreetMap Nominatim REST API, producing a 174-listing dataset
- Built a scheduled GitHub Actions workflow (weekly cron) that re-runs ingestion, commits the refreshed JSON feed, and redeploys the site, keeping listings current with zero manual maintenance
- Refactored a forked Vue 3 + TypeScript client with reactive map/list filtering (beds, baths, rent per bed, semester availability) and an anonymous landlord-review system with subscores and a public scoreboard

Al-Baqaa – Muslim Obituaries Platform Champaign, IL
React 18, TypeScript, Node.js, OpenAPI 3.0 • vipersurf.github.io/MuslimObituaries May 2026 – Aug 2026

- Architected a contract-driven data layer on an OpenAPI 3.0 specification with a zero-dependency Node.js reference API server, letting the static frontend switch between a bundled JSON dataset and a live backend with no code changes
- Engineered React 18 + TypeScript features including multi-criteria search and filtering, RFC 5545 iCalendar (.ics) generation for funeral prayer scheduling, and Google Maps deep links for a verified funeral-services directory
- Implemented a custom internationalization system (typed per-locale dictionaries + React Context) delivering 6 languages with runtime RTL/LTR direction switching and 3 CSS-variable themes; deployed via GitHub Actions CI/CD to GitHub Pages

Islamic Golden Age – Interactive Data Visualization Champaign, IL
D3.js, JavaScript • vipersurf.github.io/projects/dataviz.html Aug 2026

- Built an interactive D3.js narrative visualization presenting historical data with scroll-driven storytelling and dynamic charts as a summer course final project

Technical Skills

Languages: TypeScript, JavaScript, Python, C++, Java, SQL, HTML/CSS, Bash
Frameworks & Libraries: React, Vue 3, Node.js, Tailwind CSS, Leaflet, D3.js
APIs & Data: REST APIs, OpenAPI 3.0, JSON, ETL Pipelines, Web Scraping (BeautifulSoup)
Tools & Platforms: Git, GitHub, GitHub Actions (CI/CD), Linux/UNIX Shell, Vite, Agile/Scrum, SDLC, AI-Assisted Development
