Education

University of Illinois Champaign, IL
Bachelor of Science in Computer Science Expected May 2027
Relevant coursework: Computer Architecture, Data Structures & Algorithms, Database Systems, Software Design, Probability & Statistics for Computer Science

Technical Skills

Systems & Support: IT support and troubleshooting, server setup and administration, AV/livestream systems (cameras, displays), Home Assistant, Wake-on-LAN, Android automation (MacroDroid), computer hardware
Tools & Platforms: Linux/UNIX shell (Bash), Windows, Git, GitHub Actions, Python scripting, Microsoft Office and Excel, EMR and case-documentation systems
Certifications: HIPAA Compliance Training, Peer Recovery Support Specialist, CPI Crisis Prevention/De-escalation, Suicide Prevention Training

Experience

Central Illinois Mosque and Islamic Center (CIMIC) Urbana, IL
IT & AV Systems Support 2025 – Present

- Set up and operate the mosque's servers, display TVs, security/streaming cameras, and livestream for weekly Jummah services and community events, providing live technical support during services
- Built a Home Assistant system with Wake-on-LAN to remotely wake displays, switch channels and sources, open camera and livestream feeds, and shut systems down on schedule
- Developed trigger-based MacroDroid automation flows that keep displays on the correct channel based on event triggers, reducing manual setup for recurring services

Rosecrance Behavioral Health Champaign, IL
Engagement Specialist May 2025 – Present

- Provided technical support in a HIPAA-regulated behavioral-health environment alongside crisis engagement duties across a three-county service area
- Designed and maintained a data tracking system logging crisis events, response types, and outcomes for 2,500+ service contacts (1,750 unique clients), improving team visibility and operational efficiency
- Maintained EMR and case documentation and coordinated referrals between inpatient units, outpatient providers, and community services

Confidential Technology Company Rolling Meadows, IL
Software Engineer Intern May 2023 – Aug 2023

- Designed and implemented a centralized framework for team ecosystem documentation using Markdown, HTML, and JavaScript, improving accessibility and organization for the engineering team

Projects

Campus Housing – UIUC Apartments Champaign, IL
Vue 3, Python, GitHub Actions • vipersurf.github.io/uiuc-apartments.com 2026

- Operate a self-updating web service: a scheduled GitHub Actions pipeline scrapes landlord portals weekly, commits a refreshed data feed, and redeploys the site with no manual intervention
- Revived a forked open-source codebase end to end – dependency installation, build fixes for a modern toolchain, static hosting configuration, and CI/CD deployment to GitHub Pages

Al-Baqaa – Muslim Obituaries Platform Champaign, IL
React, TypeScript, Node.js • vipersurf.github.io/MuslimObituaries 2026

- Deployed and maintain a production community website with an OpenAPI-defined data layer and a Node.js reference API server; automated build and release via GitHub Actions
